[SUBSCRIBE](#)

**Purpose**

The goal of this page is to serve content-driven websites with a strong purpose.

**Hero**

Added global search on the right. The search form will come out when users click on it. This search will help users find any content much faster.

**Carousel Slider**

This slider will tell big idea about Insights. I am using that image to show how marketers react with they have the data. The image is interchangeable based on the content. Slider uses a full-width image with transparent filter about 40%.

**Top Content & Discover New**

I created this section in a grid style which we don't have from the earlier design. This format will help to serve proper content to readers.

For professional users, the Top content might attract their attention to discovering deeper knowledge in their field. It focuses on programmes, event, courses and etc. On the other hand, Discover New section will serve content like articles and blogs which users can read to gain new knowledge. "View more" CTA will help them to discover more content.

**User Stories & Case Studies**

This section is a re-used component from earlier design but tweaked a bit by changing font icons to avatars. That three short stories give users a rough view of members/subscribers inspiring stories and users can view in details by clicking on the User Stories card. Users can also view the Case Studies report.

**Tools for Marketers**

This section tells about recommended tools that marketers can use in their business.

## Dashboard Report

Created this page for internal product that is Time Tracking platform, focused on freelancers and remote workers. The goal of the product is to improve great working experience through data.

### Chart

We are using bar chart for our insights report. It is flexible to change by weekly, monthly and yearly. We only have an ultramarine colour to track personal working time. In future, we might have several colours to indicate billable time-tracking.

On the top, we have total hours on the left side. Also, we have print and export features for user to make a digital or printed copy. Provided 3 types of option which is pdf, csv and xls.

The numbers on top of the chart is to indicate total hours that has been used from all team members on that day.

The best platform for managing remote team

#### Ordered List

1. Make sure you've downloaded DriveMark and registered as a user. Keep the app ON in the background every time you drive. If you haven't downloaded the app, get it here.
2. Your app may not reflect your actual performance during the campaign period of 1st - 20th September 2018, this especially true if you have used DriveMark for quite some time already. So be sure to review the leaderboard from time to time here.
3. Winner announcement will be made within 60 days after the contest ends. Winners will be announced on DriveMark social media page, and will be contacted directly via email.
4. Be sure to go through the terms & conditions page before you embark on your merry journey.

#### Unordered List

#### Accordion

How do I start tracking my trip?

Will DriveMark drain my battery?

Why the trip usually detected only halfway journey?

To conserve battery, location detection only turned on when significant movement detect. Location detection usually will be turned on after user has been moving between 100m to 5km.

I am driving and i don't see my trip at dashboard

How do I delete individual trips when I'm the passenger?

# Grid System

Grid Size Grid Gutter Mixed Grids

Our grid system is composed of 12 flexible columns with a gutter between columns of 30px.

## Grid Size

Container / 12 column

Large 6 column

Large 4 column

Small 3 column

Copy

### Notes

Besides is the example creates six equal-width columns on small, medium, large, and extra large devices. Those columns are centered in the page with the parent .container

```
1 <div class=".container">
2   <div class=".col-lg-2">
3     .large-2-column
4   </div>
5   <div class=".col-lg-2">
6     .large-2-column
7   </div>
8   <div class=".col-lg-2">
9     .large-2-column
10  </div>
11  <div class=".col-lg-2">
12    .large-2-column
13  </div>
14  <div class=".col-lg-2">
15    .large-2-column
16  </div>
17  <div class=".col-lg-2">
18    .large-2-column
19  </div>
20 </div>
```

## Grid Gutter

Our grid columns have a 15px padding on either side that results in a 30px gutter between columns and a 15px gutter on the grid edges. Even though our columns are fluid, the gutter remains constant.

Copy

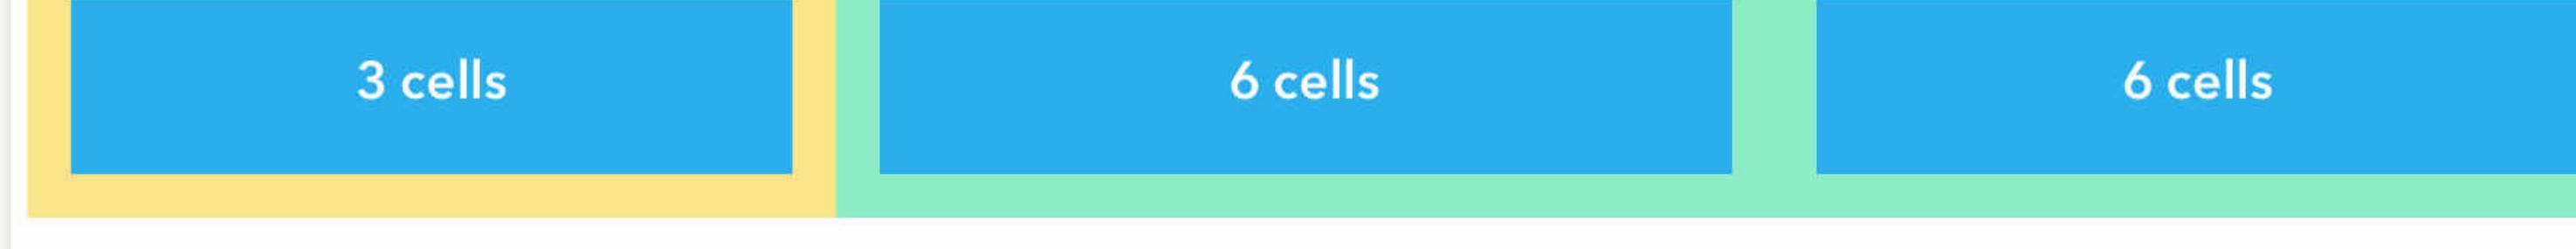

### Notes

Besides is the example creates three equal-width columns on small, medium, large, and extra large devices. Those columns are centered in the page with the parent .container

```
1 <div class=".container">
2   <div class=".col-lg-4">
3     .large-2-column
4   </div>
5   <div class=".col-lg-4">
6     .large-2-column
7   </div>
8   <div class=".col-lg-4">
9     .large-2-column
10  </div>
11 </div>
```

## Mixed Grids

The grid layout is easily extended by nesting and mixing different column sizes.

Copy

### Notes

Besides is the example creates mixed grids columns on small, medium, large, and extra large devices. Those columns are centered in the page with the parent .container

```
1 <div class=".container">
2   <div class=".col-lg-2">
3     .large-2-column
4   </div>
5   <div class=".col-lg-10">
6     .large-10-column
7   </div>
8 </div>
9 -----
10 <div class=".container">
11   <div class=".col-lg-9">
12     .large-9-column
13   </div>
14   <div class=".col-lg-3">
15     .large-3-column
16   </div>
17 </div>
18 -----
19 <div class=".container">
20   <div class=".col-lg-3">
21     .large-3-column
22   </div>
23   <div class=".container">
24     <div class=".col-lg-6">
25       .large-3-column
26     </div>
27     <div class=".col-lg-6">
28       .large-3-column
29     </div>
30   </div>
31 </div>
```

## Paragraph

### Lead Paragraph

Apparently we had reached a great height in the atmosphere, for the sky was a dead black, and the stars had ceased to twinkle. By the same illusion which lifts the horizon of the sea to the level of the spectator on a hillside, the sable cloud beneath was dished out, and the car seemed to float in the middle of an immense dark sphere, whose upper half was strewn with silver.

### Default Content

Apparently we had reached a great height in the atmosphere, for the sky was a dead black, and the stars had ceased to twinkle. By the same illusion which lifts the horizon of the sea to the level of the spectator on a hillside, the sable cloud beneath was dished out, and the car seemed to float in the middle of an immense dark sphere, whose upper half was strewn with silver.

### Small content

Apparently we had reached a great height in the atmosphere, for the sky was a dead black, and the stars had ceased to twinkle. By the same illusion which lifts the horizon of the sea to the level of the spectator on a hillside, the sable cloud beneath was dished out, and the car seemed to float in the middle of an immense dark sphere, whose upper half was strewn with silver.

## Typography

The typography is to show font type that I used. Chose the Avenir font because it is geometric sans-serif typeface and looks rigid. Avenir has some slightly humanist features that add warmth to the face, such as the tail on the t and the o that isn't a perfect circle.

# Colour

### Theme colour

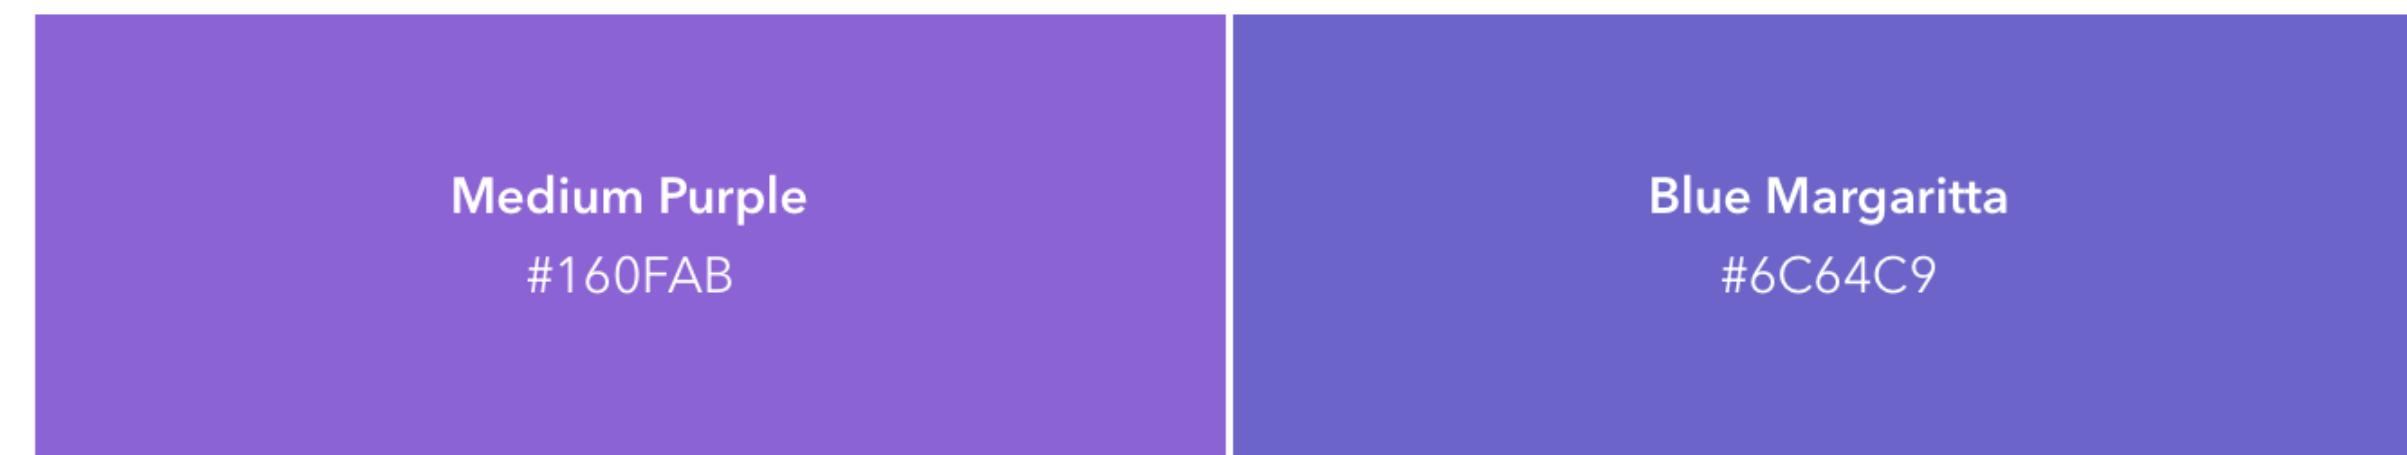

[Hex](#)[RGB](#)[Less](#)

## Colour

These are the splashes of colour that should appear the in this project UI. Every colour has their own class name, easy for developer team to defined in CSS code.

Use these for things like primary actions, links, navigation items, icons, accent borders, or text you want to emphasize.

### Additional Colour

Medium Purple

## Airbnb Styleguide — Button & Sizes

This is Airbnb button styleguide. It is my reference to start designing and understand the styling that Airbnb used.

The image shows three iPhone screens illustrating the progression of a user's profile completion in the DriveMark app:

- FIRST TIME USER:** Shows an incomplete profile with 124 Safe Trips, 237 Total Trips, 34,089 km Distance Driven, and 116:03 h Driving Time. It displays 4 achievements unlocked (10, 25, 50, 100) and an "Incomplete Profile" message.
- PROGRESSION:** Shows the profile with 40% Profile Completion. The vehicle section lists "Proton Persona" with license plate "WVV 7593" and "Insurance Provider Missing". The personal details section lists "karimismail@gmail.com" and "+6013 480 9390".
- COMPLETED:** Shows the profile fully completed with a green checkmark and the message "Profile Completed! Well done". The vehicle section now lists "Allianz Malaysia Berhad" with the note "Next renewal on 18 Aug 2018".

The image shows four iPhone screens illustrating the help section of the DriveMark app:

- GET HELP:** Shows a "Get help" screen with a hand icon in water and a "Got a question? We're here to help" message. It includes a search bar and a list of categories: Tracking, Tips, People, Scoreboard, and Tips.
- HELP LISTING:** Shows a listing of help topics: "How do I start tracking my trip?", "Will DriveMark drain my battery?", "How do I stop recording when I am the driver?", "Why the trip usually detected only halfway journey?", "How to exit from DriveMark app?", "My device is in lower power mode, Will DriveMark detect my trip?", and "Why the green driving indicator shown even though I'm not driving?".
- HELP ANSWER:** Shows an answer to the question "Why the green driving indicator shown even though I'm not driving?". It explains that DriveMark detects all journeys automatically after installation and stores driving history. It includes a "Was this information helpful?" rating section.
- ANSWER HELPFUL:** Shows the same answer screen with a "Was this information helpful?" section at the bottom.

## KATSANA - DriveMark

DriveMark® is an ecosystem that rewards safe drivers. It is an app that scores your driving behaviour and encourage you to become safer.

The app is live on App Store and Google PlayStore.

The ToroBravo mobile application interface is shown across four screens:

- Timer > Dashboard:** Shows a summary of work tracked today and yesterday. A "Start" button is visible at the top right.
- Timer > Tracking:** Displays a list of tasks being tracked on the current day. A "Stop" button is visible at the top right.
- Timer > Manual:** A manual tracking screen showing a timeline from 9:00 AM to 9:17 PM with a duration of 0.35 h. It includes a "Go Timer" button and a "Save" button.
- Timer > Edit:** An edit screen for a specific task entry. It shows a list of projects and tasks, with a "Meeting with Matthew" entry highlighted. The entry includes a start time (9:00 AM), end time (10:45 PM), and duration (1.75 h). There are checkmarks and a delete icon next to the entry.

## ToroBravo

The goal of this product is to deliver great team working experience through data.
